Minor Impact
Key  
Moderate Impact
High Impact

**Construction Activities:**  
Forklifts will access the building along 17th from Columbia from time to time to stock the brick masons. Mechanical, Electrical, and Plumbing rough-in is on-going in the building. Permanent roofing will continue on the lower roofs weather permitting. Exterior cladding will continue on the west, east, and north wing. Drywall and gypcrete will be installed on the interior. The elevator install and interior finishes will continue this week.

**Construction Equipment onsite:** Two forklifts will move material around the site. 3 Boom lift will facilitate the window/WRB install on the exterior of the building.

**Truck Traffic:**  
Shown in diagrams above.  
Safety is the highest value for Walsh Construction. Walsh focuses not only on the safety of pedestrians and vehicles around our site, but also the safety of our workers onsite as well. Our goal is to ensure everyone returns home safely each day.
